1. The two Monarchist groups supporting Don Juan - the anti-FRANCO Monarchists and the "collaborationists" personified by Julio DANVILA - reportedly have agreed on the month of October as the time for a transition from the present regime to the Monarchy.
2. The informant stated that this information had been given to the Juventudes Monarquicas (Monarchist Youth) by the prominent Monarchist Joaquin SATRUSTEGUI, who added that he had no great confidence that the transfer of power would take place, and advised the Juventudes Monarquicas not to become disorganized. SATRUSTEGUI said that the Pretender's agreement with the Socialists was the chief obstacle to an understanding between Don Juan and FRANCO.*
